ABOUT BYTES SOLVED SOFTWARE SERVICES

Bytes Solved Software Services started its full fledged IT operations in 2007 and has undertaken mission critical projects and product development for various clients to their complete satisfaction. Bytes Solved places great value on relationships, which is an integral part of the Bytes Solved culture and believes in collaborative growth.

Our main business area is Web Design, Web Development and Customized Software Application Development. We are a technology consulting company committed to providing innovative solutions to technical hurdles faced by organizations of any size. We are proud to say that most of our business last year was derived from companies who were referred to us by our existing customers.

At Bytes Solved, we are striving to understand changing customer needs. We want to make our customers lives easier by simply making technology usable. We have solid Information Systems Professionals, who with the help of world class tools and equipment, study, design, develop, enhance, customize, implement, maintain and support various aspects of Information Technology. We have the expertise and experience to help cut costs significantly without impacting product quality or delivery schedules.

OUR EXPERTISE

We have been providing our clients with the best in IT Consulting, Software Development and Web Design. Over the past 9 years Bytes Solved implemented more than 30 projects of various scale. Technology focus is PHP, .NET Custom programming, Internet Applications, Software Development, and Web Design are few of our core strengths. We specialize in designing and implementing cost-effective, creative information solutions to complex business problems. We have provided mission critical applications for the Civil Construction Industry and Real Estate industries

SOFTWARE SERVICES

OUR PRODUCTS

1. TERBIUM iPOS ERP Software

Development Tools / Technology: [Codeigniter](#), [MySQL](#), [PHP5](#)

Project Overview:

Terbium iPOS is a Point of Sale software for various business verticals in Retail and Restaurant, Its flexible architecture, custom billing and layouts make it easier for businesses to implement as per the need. Terbium iPOS Billing and Inventory Management Software is designed to work on a single system or on network with an optional integration to cloud architecture to enable ERP, Reports for easy access of data through web or mobile. Cloud integration works through smart sync architecture to enable near real time data availability on the cloud. For outlets with limited internet connectivity an offline system with ability to push the data online when connected to internet removes headaches for business owners of any downtime because of connectivity issues. Terbium iPOS supports integrations to external software services such as Customer Loyalty, Enterprise ERP, financial accounting systems.

2. Freight EMS (Enterprise Management Software)

Development Tools / Technology: [MySQL](#), [PHP5](#)

Project Overview:

Freight EMS System provides easy wizards to get all import and export cargo transactions for air, ocean and ground, together with any documentation that's able to print or email at a go. From the same interface you can connect and share directly the MBL (Master Bill of Lading), BL (Bill of Lading) and other details to the stakeholders. Just a click will produce and print labels, documents and reports. Our System is totally labile for tiny and enormous organizations, providing benefits in account relationships and providing you with access to advanced supply technologies.

The screenshot shows the 'OCEAN IMPORT NEW SHIPPMENT ADD' form in the EMS system. The interface includes a top navigation bar with the date '15th February 2019 10:36 AM' and the user name 'Vinodh Nalamati'. The form is divided into several sections:

- Header:** 'OCEAN IMPORT NEW SHIPPMENT ADD' with a breadcrumb trail 'Home > OCEAN IMPORT NEW SHIPPMENT ADD'.
- Form Fields:**
 - Sales Executive: Select Sales Executive (dropdown)
 - Select Client: Select Client (dropdown) with a link 'ADD NEW CLIENT'

Fast Payday Loans for up to \$1,000.00

Receive a payday loan or cash advance of up to \$1,000.00 cash as soon as you complete our payday loan application.

Up to \$1,000 in four minutes.

Apply online or call 1 (877) 917-7489 to apply now!

You can have a "Yes" to you in an hour.

Receive a payday loan or cash advance of up to \$1,000.00 cash as soon as you complete our payday loan application. No credit checks. No faxing*. A 97% approval rate on all payday loans. Four minutes to apply. Money in your account quickly. It's that simple.

Our competition loves to yell "WE'RE THE FASTEST! WE'RE THE EASIEST!" because the opposite is true. The reality is that other payday loan services want you to fill out endless payday loan cash advance forms. Not us. We're ready to serve you right away. We even pick up the phone. Read more below to learn why.

Get your payday loan from experts.

Let our years of experience work for you.

We're fast because we understand our customers need a payday loan quickly. In business for many years, we have been around the block. We know what our customers want to be treated like we'd like to be treated. Because we know exactly what to ask you-and because we're experienced we know how to ask it quickly. We immediately begin approving your payday loan application when you complete the on-line loan application. Most approvals happen in about an hour.
